

Airport Safety Advocacy Program (ASAP)

The Global Aerospace commitment to aviation safety is unrivaled in our industry.

Since 1924, we have been dedicated to supporting the aviation industry and we will continuously evolve our safety tools to help maintain a robust safety culture.

As aviation advocates, we've designed this safety program for both general aviation and commercial airports. This program is designed to not only provide airports with affordable and comprehensive insurance*, but to also enhance their safety efforts.

We have designed this program for not only airports, but also the associations that represent them. We recognize the value airport associations bring to their local airports and we want to do our part to support their efforts. Under this program, every airport that binds their insurance with Global Aerospace can expect:

- Affordable, comprehensive coverage
- Convenient 3 year policy term with guaranteed rates**
- Annual premium payments for easy budgeting
- Electronically issued policies
- Automatic eligibility for our Accident Forgiveness Program
- Global will reimburse membership dues for your local ASAP contracted airport association for one year, up to \$250, for any member that binds their insurance with Global Aerospace.
- SM4 Safety Benefit - an important component to this program. Every airport and association that becomes part of this program will have access to our Online Safety Learning Management System (LMS).
- This program is not exclusive to specific brokers. Each airport can continue to use their current broker.

**guaranteed rates do not apply if there is a change in exposure, coverage selection or limits.
Part 139 airports and airports with limits above \$20mil do not qualify for guaranteed rates.

Global Aerospace - Advocates for Small Airports and Their Associations
